

UPTON COMMUNITY CARE

For most of us, life has been enormously changed over the past weeks. Churches have been arranging services over the internet, people who can use video links are chatting to family and friends as though they are face to face. Many people are now shopping over the internet and having their goods delivered. Some schoolchildren are now returning to school and as from 15th June some shops will be allowed to reopen. So slowly life is beginning to get back to something a little near to normal.

We in the Upton area are fortunate that we have had an emergency group of helpers who have been delivering our prescriptions. Upton Community Care are still able to take people to any medical appointments that are now slowly being booked. But for the foreseeable future we will be asking clients when we take them to their appointments to wear a mask (which we will provide) and to sit in the back seat of the car and whenever possible have a window open in the car for good ventilation. Although our office staff are working from home, still ring the normal office number, 01684 593633, it will be transferred to one of our team.

Most phone calls between friends and family now end in 'stay safe'. So, from Upton Community Care, best wishes, and stay safe.
